

D-BUSINESS® WebDAV

D-BUSINESS® WebDAV makes it possible to download/upload or synchronize attachments stored in IBM Lotus Quickr, IBM Connections (read only) and Lotus Notes databases directly to your iPad or iPhone over the WebDAV HTTP(s) protocol.

Features are:

Download/upload or synchronizing attachments to your iPad using Goodreader for iPad or other WebDAV clients.

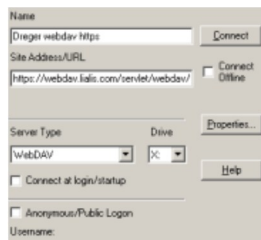

- Delivers shared drives on your desktop connected to the IBM Lotus Quickr places
- Allow easy archiving of attachments stored in IBM Lotus Quickr by copying the attachments from the file share
- HTTP standard WebDAV protocol is used

General specifications

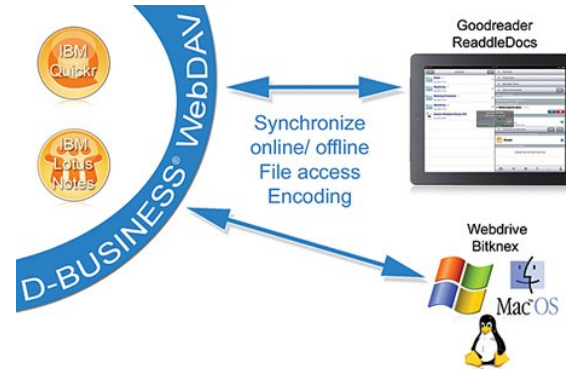

- Webdav can be installed on IBM Lotus Domino Server 8.5.* with or without IBM Lotus Quickr 8.5.*
- Full HTTPS support
- Server OS independent
